Requirements and funding per sector - \$million

Requirements and funding per pillar - \$million

Contributions and Pledges by donor - \$million

Legend

- Requirements (Grey bar)
- Contributions (Blue bar)
- Pledges (Blue bar with diagonal lines)

Remark:

1. FTS - <https://fts.unocha.org/appeals/660/summary> - has tracked \$649.5m of humanitarian contributions to date and reports on a 55.2 per cent funding rate towards the HDRP. The main differences with the in-country funds tracking are that FTS deducts confirmed Government and development contributions from the overall requirements, excludes Government contributions and only captures carry-over resources partially
