Agenda	Discussion	Action Points
<u>Cluster updates</u>	<ul style="list-style-type: none"> WATER SUPPLY: <p>Oxfam: finalize the rehabilitation of compact unit in al Hather and increase the capacity from 200 m³ to 900 m³ and supply with installation two pumps to Aski Mosul.</p> <p>IRI: install water pipes in the old city in Mosul and are about to implement compact unit with coordination with DoW in al Resala neighbourhood and have projects in Al Jaddaa camp for distribution 1800 HK and few items of winterization. RI will implement open channel to control the floods there.</p> <p>Tearfund: Implementing extension of water pipes in Wana and implement hygiene promotion in Dawasa and are about to implement 2 projects, the first in Salamyia camp 1,2 to provide them with elevated tank (60 m³). Tearfund communicated with ACTED and are waiting the security assessment to be able to visit the camps. The fund is confirmed and the other project in Jaddaa camp we have project for rehabilitation the latrines.</p> <p>ACF: Received 10 BoQs from DoW but will take only five of them. About to begin the rehabilitation of water supply network in (Al Sihha 1-2, Al Methaq, Al Entisar). Will begin next week and are now communicating with DoM to provide trash bins to those areas.</p> <p>World Vision: Rehabilitating 3 pipes in Talaffar and 4 bore holes in the villages of (Owenat, Msherfa, Tal Smeel, Abo Khashab). Also doing rehabilitation of wash facilities in 9 schools in Talaffar.</p> 	

	<p>PIM: Rehabilitation of 30 public infrastructures and the wash facilities in the public centers and schools and hygiene promotion in those schools.</p> <p>Mercy corps: Rehabilitation of WTP in Badosh and doing 2 WPS in Mosul and 4 WPS in Tal Affar and rehabilitation of Bore hole in Rabeaa and Sinjar.</p> <p>DoW: Will rehabilitate the old left bank project and will start in couple days. The project includes 11 filters because currently there are 22 filters and they are not enough because now we are pumping a lot of water and more than the capacity of the 22 filters.</p> <p>Oxfam: in al Hather there is a problem in the design the compact unit which is that there is a pipe supplying raw water to the treated water and then the station pumps the water to people.</p> <p>PWJ: Completed 2 projects in Zummar about water network and rehabilitation of elevated water tank and distribution of winterization items in Sinoni. Also working on the rehabilitation of the water network inside sinjar - 3.4km</p> <p>SI: Two new projects, the first starts in the beginning of Feb in Al Namroud camp for wash activities and the other is wash out of camp in Muhallabiya and it will begin in March.</p> <p>ACTED (by email) The ACTED planned to rehabilitate the water infrastructure (Larger , medium and small scale), we managed to secure the fund and did assessment for 14 locations (detail is given in attached list) and remaining few assessment will be done soon.</p> <ul style="list-style-type: none"> • SANITATION: <p>IRI: Assisting through cash for work project, hiring 630 people for cleaning the sewage network and rehabilitation of 5 sewerage station in Mosul for pumping sewage water to valleys.</p> <p>Mercy corps: Conducting emergency desludging at Jaddaa camp 5,6 for 1 week only.</p> <p>FRC: this week FRC started distributing 2500 trash bins of 120 liter, one for each house in 6 neighbourhood and 500 trash bins of 660 litter. Noted that most of the</p>

	<p>families ask for plastic bags.</p> <p>Mercy corps: we will distribute 1100 trash bins of 1.1 m³ in Rabeaa, Sinuni, Zummar and Mosul.</p> <p>The cluster discussed the need to focus on collecting the garbage from trash bins and communicate with the DoS to complement the distribution of trash bins.</p> <p>Pekawa: doing medical waste collection and treatment in Azhelila, Mosul, Tikrit</p> <p>SI: For SI's most recent project the team communicated with municipality about collecting garbage after SI's activity finished. The SI activity collected the solid waste for 3 days a week in Tawafa, Dor Al Sukkar, Al Sumoud and Mamoon.</p> <ul style="list-style-type: none"> • HYGIENE : <p>Wash partner: we did a project of hygiene promotion and we trained 30 persons from the community and they gave hygiene promotion in Wana and Dawasa.</p> <p>WaSH partner: we distribute hygiene kits to 15 PHCs.</p> <p>FRC: we did hygiene promotion in 6 schools in old city (2000 beneficiaries)</p> <p>WaSH partner: we did hygiene promotion in Salamyia 1,2 and Hammam Ali 1,2 and distribution of hygiene kits.</p>	
<p><u>AOB</u></p>	<ul style="list-style-type: none"> • Mercy corps: we have a project decommissioning, so if partners have decommissioning which need support or know of a camp closure, please contact Mercy Corps directly. • ACTED assessments: ACTED planned to rehabilitate the water infrastructure (Larger, medium and small scale), and managed to secure the fund and did assessment for 14 locations (detail is given in list attached to the WASH minutes) and remaining few assessment will be done soon. <p>Next step, ACTED have developed the scoring criteria for evaluation and selection of the area, we will finalize the site selection process probably by end of next week and will share the final list with you.</p> <ul style="list-style-type: none"> • Discussion around pre-positioning of emergency goods for more potential flooding in the next few months. <p>Regarding floods: Unicef did a project in Salamyia 1,2 to control the floods.</p>	<p>Contact wakeel.ahmad@acted.org for more details on the assessments</p> <p>Contact younibrahim@mercycorps.org for decommissioning support</p>

	<p>Oxfam have a stock for contingency; 1800 winterisation kits</p> <p>IR also have contingency stocks</p> <ul style="list-style-type: none"> Partners reported that the alerting mechanism of areas affected by flooding (email from Ninewa WASH Cluster, partners report areas of concern) worked well during the December floods. Partners suggested strong links with the CCCM cluster to alert WASH partners of challenges within camps. 	<p>Ninewa WASH Cluster will operate in the same way for new floods, and will seek to strengthen the links between Ninewa CCCM and WASH Cluster.</p>
<p>Next Meeting date: 6th or 13th of February 2019 in Mosul</p>
