Complications have been referred to the OTP, being aware that the project will end in the coming December.

SOYDA:

SOYDA has updated to the NC that two main camps in their intervention area of Section three in KAHDA District which are Kuntruwarey and liman Camps which was holding 607HH have been evicted by the land owners, the camps with the most of the HH have settled another land near to the area where the service has also moved with them.

Furthermore, SOYDA has mentioned that there is a new structure thought to be a Health Center which is very close to their site at Siinka Dheer which they have requested from the Cluster to be confirmed.

ANNPICAN:

ANNPICAN has updated to NC that they are facing Micro-Nutrient Powder (MNP) stock out from their 15 sites in Banadir, and asking if there is any partner who can support/donate to those site's Beneficiaries. Furthermore, ANNPICAN has also requested Zinc Sulphate tab which they have finished from their Stock.

ACF:

ACF has updated to the NC that still the 32 cartoons of the F75 formula which is expiring is in the stock and it is ready to donate if any Partner is wishing to distribute it.

In addition to that ACF has mentioned that they have received 150 cartoons of F100 formula while ACF has also acknowledged and thanked for the Contribution.

ARC:

ARC has exhibited it's regretful to present and attend several NC meetings, due to some circumstances, but from now on ARC has promised that they will attend the meetings as Usual.

Action Point 2:

The NC and FMoH will do follow ups to make clarification and confirmation of that Structured Center and what service will provide to the area so as to prevent service overlap and/or duplication.

Action Point 3:

The FMoH will do follow up to the ANNPICAN's requisition of the Micro-Nutrient Powder with UNICEF and any other Partner who can provide it.

	<p style="text-align: center;">SAF – UK:</p> <p>SAF-UK has updated to NC that in November has started the integrated project of OTP and IYCF-E and up to now they have served 240 U5 beneficiaries and 189 PLWs at their intervention IDP Camps of Kaamil and Qoryooley, in addition to that they do refer the OTP graduates to the nearest TSPF site which implements by WARDI organization.</p> <p style="text-align: center;">SORRDO:</p> <p>SORRDO has updated to the NC that still the PD of their Warta Nabadda site under the resilience project is pending and the OTP service did not run till the sixth month of the year being aware the SORRDO's OTP is the only OTP which was serving the entire District.</p> <p>Furthermore, SORRDO has requested different times advance OTP supplies so as to serve the community until PD's process is over.</p> <p style="text-align: center;">WARDI:</p> <p>WARDI has updated to the NC that the PCA of their HamarJaJab District OTP and SC is expired in June this year, while the normal activities are running and get the Supplies from UNICEF.</p> <p style="text-align: center;">YOUTHLINK</p> <p>YouthLink has updated to the NC that they have conducted 3 days training about IYCF to 8 community Hygiene Promoters to help the newly arrived IDPs in Kaxda District and distributed hygiene kits to 198 HHs.</p> <p>In addition to that, Youthlink updated that 27 Hygiene Promoters in 3 different Districts namely Bondhere, Karan and Wadajir have provided IYCF awareness to 132 HHs.</p>	<p style="color: red;">Action Point 4:</p> <p>The FMoH will follow the OTP supplies requisition of SORRDO to UNICEF, so as to serve the Community till the PD's process will be over.</p>
<p>Distribution Plan for the Date's from QRCS to the Kaxda</p>	<p>25 tons of Date's distribution for 2,500HH of newly arrived IDPs in both Kaxda and Dayniile Districts, which</p>	

SOMALIA NUTRITION CLUSTER

<p>and Deynile newly Arrived IDPs.</p>	<p>was from QRCS through OCHA, FSL and Nutrition Clusters have been discussed and planned by the Partners.</p> <p>Due to the security concerns of the Health Centers and the number of the beneficiaries they do receive daily the partners have agreed on to give each beneficiary receiving nutrition supply with additional 2kgs of the Dates.</p> <p>10 pre-selected Health Centers 5 per each district have been assigned to the Distribution, the consignment have been received by the sites and the distribution has agreed, while the NC has developed an accountability document which will be captured the information and receipt signature of the Beneficiaries.</p>	
<p>Quarterly Banadir Nutrition Service 3Ws Matrix.</p>	<p>The NC requested the partners to fill properly and accurate information provided in the 3Ws Matrix for the Banadir Nutrition Service by the Partners.</p> <p>Some partners are not filling the format accurately, there are missing data particularly the GPs Coordinates while some others are not reporting their presence in Banadir.</p> <p>So, it has been agreed to fill the form with the exact information by the relevant person in the organization and share with the Cluster on due date</p>	
<p>AOB.</p>	<p>A sample of new RUTF form, which is different from the previously used one in the industrial place has been demonstrated to some of the partners and asked to test it to the Beneficiaries at their Nutrition Sites and show it to the technical staff, then give back their recommendations either to be ordered or not.</p>
