### 2. Assessment Finding and Recommendation in brief:

Be very concise and provide # of affected people, information about damages, priority needs, and recommended assistance (Who, When, How should be assisted, By which Organization).

Security context in Helmand province is extremely unstable since last year due to continue conflict between AOGs and the government authorities especially in Nawa e Barakzaiy district of Helmand province. The fighting between

AOGs and government forces got worse in the month of December in Nawa district of Helmand province. The households within the conflicts areas couldn't cope with the conflict and they are displaced from their origin villages and settled in different villages of Nawa district in those areas which are secured and control by the government forces. Currently the government forces started clean-up operation against AOGs in southern villages of Nawa e Barakzaiy district of Helmand province.

The joint assessment team identified 17 HHs in Nawa city and recommended for the multi-purpose cash assistance to all selected HHs.

#### Assessment findings:

Total HH	# of family	Children's (0-5)		Adolescents (5-18)		Adults(18-60)		Elders( 60+)	
HH	Family	M	F	M	F	M	F	M	F
<b>17</b>	<b>17</b>	<b>20</b>	<b>20</b>	<b>21</b>	<b>25</b>	<b>18</b>	<b>17</b>	<b>0</b>	<b>0</b>

Household compositions (121 total Individuals)

- ✓ 9 HHs (53%) are living temporary in hosted house for free but they need for emergency shelter for living, 8 HH (47%) are living in personal their owned houses but they are also extremely affected by the conflict disaster.
- ✓ Access to safe water has been enough secured for 17 (100 %) of IDP, HHs are using hand pump, stream or river water for Bathing, Cooking and Drinking.
- ✓ All 17 IDP HHs (100%) are using family latrine for defecation.
- ✓ All 17 IDPs families (100%) reported that they lost their entire income, the average income before the shock was 5735 AFN and the income after the shock is 3647 AFN.
- ✓ 3 HH (18%) families with the debts between 2000 and 8000 and 14 HH (82%) families reported they have more than 8000 AFN debt.

#### Recommendations:

In total, joint assessment team identified 17 IDPs HHs (121 Individuals) based on household level visit whom are recognized eligible for immediate assistance. According to the beneficiary needs, Food is their main priority then NFIs. Food or Cash for Food and NFIs are highly recommended for all eligible IDPs HHs.

Based on joint assessment team observation:

- Two months Cash for food or Food ration recommended for all beneficiaries.
- Kitchen kits and Hygiene kits recommended based on people in need.
- Two months multi-purpose cash assistance recommended for all beneficiaries for their other need, specially Health, Fuel, Rent and Transport needs.
- Emergency Shelter (Tent) for 9 HHs recommended based on people in need.

After assessment, a joint coordination meeting with DoRR and humanitarian partners done (led by OCHA), and it has been decided that **ACF, WFP, IRC and UNICEF** will response for the caseload with following response.

- **WFP** will cover two months cash for food needs to all beneficiaries.
- **ACF** ERM Will provides MPCA top up cash to cover immediate health, transport, fuel and shelter needs for all selected beneficiaries in one-installment and Hygiene kits to all beneficiaries.
- **IRC** will provide Cash for NFI to all beneficiaries and emergency tents to 9 beneficiaries.
- **UNICEF** will provide extra local hygiene kits, water kits and winter cloth kits to all 17 families.

As mentioned above ACF has capacity to provide full amount of MPCA but other non ERM partners also active to provide assistance.

As Per ERM modalities, if other actors provide in kind or Cash response, ERM partners will deduct its MPCA amount based on the NFI or Food commodity cluster Standard calculation.

As WFP would provide two months Cash for food as per standard, ACF will deduct 12000 AFN from its multi-purpose cash Assistance. In addition, as IRC is providing 6000AFN Cash for NFI, ACF will deduct 6000 from its multipurpose cash and provide only a top up MPCA for all beneficiaries.

### 3. Sectorial Issues:

- A) Food Security, Nutrition and Livelihood:** *(provide detailed information about the impact of food security and livelihood i.e. lost/damaged food stock, current food stock statues, income sources, damaged/destroyed crops and agricultural land, type of agricultural land, agricultural inputs availability, diet diversity, irrigation system, livestock etc. Also describe immediate food and nutritional need and provide recommendation about the short and long term food and nutrition assistance)*

The overall food security situation is vigilant. All households' average income is not more than 3647 AFN. 100% of the families have to adopt coping mechanism when facing constraints to manage food. 3 HH (18%) families with the debts between 2000 and 8000 and 14 HH (82%) families reported they have more than 8000 AFN debt.

17.6 % families have food stock for less than a week and 82.4 % have no food stock at all which will lead more food insecurity in upcoming days.

**Recommendation:**

All 17 HHs are recommended to be provided Cash for Food or Food in kind to ensure their immediate food needs.

- B) NFI:** *(provide detailed information about NFI items lost due to disasters/crises as well as what type of NFI is needed for how many families and when? NFI can include cooking items, kitchen items, hygiene items, bedding, clothing, fuel etc.)*

Based on the data analysis 94.1% families are in need of kitchen items, 70.6% families need heating materials, 100.0% families are in need of clothing, 94.1% families are in need of blankets, 23.5% families are in needs of water containers, 82.4% families are in need of hygiene supplies and 17.6% families are in need of other items.

According to physical observation it is found that the NFI conditions in IDP households are not good and not usable at all.

**Recommendation:**

- All the 17 households don't have NFIs or the quality of the NFIs was not good therefore all eligible HHs are recommended to be provided cash for NFI or NFI in Kind.

- C) Shelter:** *(please provide detailed information about the status of shelter condition i.e. type of normal shelters, # of shelters moderately damaged, severely damaged and completed destroyed by crises. How many people live in open space, sheltered with host families, etc. What kind of shelter support/assistance is needed and for How many families). Are there land ownership issues?)*

9 families (52.9%) are hosted temporary by their relative or communities and 8 families (47.1%) living in personal houses and the families who are living in the hosted communities empty rooms which are not in good condition with proper facilities and need good rooms for living with dignity.

**Recommendation:**

It is recommended to cover their needs under MPCA coverage to ensure their proper dignity.

- D) WASH:** *(provide detailed information about Water sources, affected water source, sanitation (latrines, used water and solid waste management) and hygiene issues. What is recommended in WASH sector and when?)*

IDPs and host families are sharing the same water sources. Access to safe water has been secured for all 17 families. All 17 of IDP families are using hand pump and stream or river which are safe water for their cooking and drinking purposes. According to physical observation 17 IDPs HHs are using family pit latrine for defecation.

**Recommendation:** In Nawa city, all the HHs has access to safe drinking water in their houses or can find within their near neighbors. Almost all families have lost or did not bring their hygiene kits, therefore hygiene kits recommended for all 17 HHs.

**E) Protection:** *(provide detailed information about protection issues, protection needs, PSN and EVIs (Female H, elderly HHs, child HH, chronically ill members, disable members) and provide precise recommendation regarding IPAs)*

An important number of people with additional vulnerabilities have been identified (see table below):

3.1 Elderly head HH	3.2 Female Head HH	3.3 Child head HH	3.5 Physically Disabled	3.11 Chronically Ill	Separate d child	Emotionally stressed child	Child/women prevented from services
0	0	0	1	1	0	0	0

Table: Number of household with additional vulnerabilities

**Recommendation:**

- No BNFs identified for quick support to the specific needs including IPA and Referral.

**F) Health:** *(provide information about health issues, damaged/destroyed health facilities, current/available health facilities, access to health services and recommended assistance in this regards)*

All IDPs are located in Nawa city, they are near to district hospital and they have fully access to district hospital which is free of cost of doctor fees and they are also providing some free medicines but for most of medicines or other treatment prescription IDPs should take care. In case of chronical illness, ACF will ensure the IPA support for better treatment of the beneficiaries.

**Recommendation:**

Distribution of cash for all 17 beneficiaries for their health support under MPCA Assistance

**H) MARKET ASSESSMENT:** *(provide summary information regarding the local market, accessibility, and security constraints and fill the table if a market assessment has been conducted)*

All IDP household are living within Nawa city and there are many local markets. Each local market is about 10 KM from beneficiary's houses and they have access to the market. The markets are open and commodities are available in the market. People are purchasing their daily needs from Nawa city local market or their nearby markets. ERM team did market assessment in Nawa city and the prices of each food item are as follow.
