STRATEGIC OBJECTIVE 1

The lifesaving needs of vulnerable people affected by the humanitarian crisis are met.

STRATEGIC OBJECTIVE 2

Preparation for natural disasters is reinforced.

STRATEGIC OBJECTIVE 3

Contribution to the elimination of diseases with epidemic potential.

STRATEGIC OBJECTIVE 4

Protection and respect of human rights of the most vulnerable people are promoted and strengthened.

Some 4.6 million Haitians will require urgent support in 2020, more than 40 per cent of the population.

The 2020 update to the multi-year Haiti Humanitarian Response Plan (HRP 2019-2020) requests US \$253 million and aims to reach 2.1 million most vulnerable people.

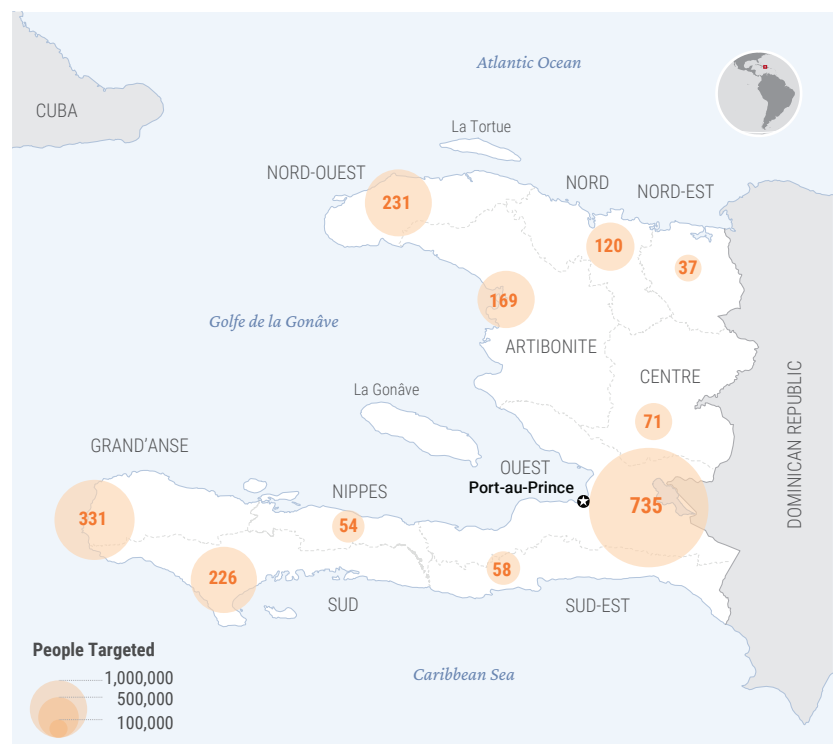

The revised HRP takes into account the economic, social and political crisis, which had gripped Haiti throughout 2019 and resulted in an 80 per cent increase in the number of people in need of humanitarian assistance. The response strategy aims to save lives, meet the most pressing needs of the most vulnerable

populations, and strengthen preparedness and mitigation measures. It will also foster links and complementarity with development actors.

The revised HRP focuses on response to the emergency levels of food insecurity (IPC 4) by restoring livelihoods and ensuring access to water, sanitation and hygiene and emergency health services; on supporting access to education for the most disadvantaged children; preventing violence against women and children and providing services for the survivors; and meeting the needs of those in need of shelter.

PEOPLE TARGETED WITH HUMANITARIAN ASSISTANCE

In thousands of people

Strategic Objectives

STRATEGIC OBJECTIVE 1

The lifesaving needs of vulnerable people affected by the humanitarian crisis are met.

- Basic needs (food, nutrition, water and shelter) and access to basic services (sexual, reproductive and child health, education in emergencies) of the most vulnerable people affected by humanitarian crises (caused by drought, sudden-onset emergencies, forced displacement) are guaranteed.
- Support for restoring the livelihoods of the most vulnerable people affected by a humanitarian crisis is ensured.

STRATEGIC OBJECTIVE 2

Preparation for natural disasters is reinforced.

- Community capacities to cope with natural disasters in areas most at risk are strengthened.
- Support for the mandate of state institutions involved in the prevention and management of risks and disasters is ensured.
- Coordination between partners involved in disaster preparedness and response is strengthened and supported by effective information management mechanisms.

STRATEGIC OBJECTIVE 3

Contribution to the elimination of diseases with epidemic potential.

- Detection, confirmation and investigation of cholera, diphtheria and malaria cases are ensured.
- Adequate medical care to reduce mortality is ensured.
- Community response to cut transmission is ensured.

STRATEGIC OBJECTIVE 4

Protection and respect of human rights of the most vulnerable people are promoted and strengthened.

- Individuals at risk and survivors of abuse, violence, exploitation and exclusion living in affected communities have access to minimum care services (medical, psychosocial, legal and protection).
- State and non-state institutions working in protection are supported in the implementation of standard protection directives in emergencies.
- At-risk and affected communities participate in prevention and awareness-raising activities on the risks and protection services available within the framework of humanitarian assistance.

EMERGENCY RESPONSE FUND (CERF)

The CERF provides rapid initial funding for life-saving actions at the onset of emergencies and for poorly funded, essential humanitarian operations in protracted crises. The OCHA-managed CERF receives contributions from various donors – mainly governments, but also private companies, foundations, charities and individuals – which are combined into a single fund. This is used for crises anywhere in the world.

Find out more about the CERF and how to donate by visiting the CERF website:
