#	Agenda	Discussions	Action points
1	Welcome and introduction	OCHA warmly welcomed the team and the team introduced themselves to each other.	
2	Brief information on OCHA and INGOs mission to Warduj.	<p>Brief information about the OCHA, ACTED and DACAAR mission to Warduj district: OCHA has briefed the OCT team about the mission which took place on 08 of April 2019. Through this meeting with Taliban officials agreed that all the humanitarian partners may have movements in all part of the Badakhshan which are under the control of Taliban, Meanwhile OCHA updated the team about the mission findings in Warduj in Health, WASH and Education issues:</p> <p>Health clinic: The Warduj clinic is a CHC clinic, the clinic was headed by a nonprofessional staff who is a vaccinator, one nurse and one midwife were working in the clinic, while about 150 patients including the patients comes to midwife for genealogical and internal treatment comes to the hospital, while there are not Medical Doctors.</p> <p>AKSH: In the areas where are Under the control of Taliban in Warduj three health center: CHC, and two sub health centers. we announced female MD doctor but not found while still we are looking for a medical doctor to Warduj clinic, not only in Warduj but in all part of the under control of Taliban the doctors are not ready to work, from other side the salary level for the doctors are very low. Al we have announced one gynecologist but so far there are not found any application This morning (10 April 2019) one Male MD hired and wet to Warduj while Six-month medicine also supplied to Warduj clinic. Wash assessment: four villages do not have access to drinking water the old network was worked by ME and according to the community the network does not work, UNECIF will provide tents for two schools.</p>	One joint assessment team consisting of ACTED, AKF, and TA F UNICEF will assess the WASH needs in Warduj district

		<p>Need assessment: the respected agencies discussed that need assessment to prepare proposals are required. Two schools which are running without tents in an open space was another issue raised by OCHA.</p> <p>One joint assessment team consisting of ACTED, AKF and UNICEF TAF established to assess the WASH gaps and also they will visit also the two schools.</p>	
3	<p>Updates on natural assessment and responding to the flash flood-affected families in Badakhshan province.</p>	<p>New petition collected in ANDMA: The OCT meeting reviewed the interagency assessment teams' findings in Badakhshan districts, so far 270 families have been verified as flash flood affected families while still the interagency assessment teams are in the field and agreed to share the assessment team's findings with OCHA for further coordination to respond the caseloads, <b>the interagency assessment teams are requested to take pictures for the caseloads and share with OCHA.</b></p> <p>Assessment status in districts: Keshem: 270 families verified as flash flood affected families in 13 villages of the Keshem district while assessment is ongoing, out of 270 identified families 62 families have received humanitarian aid and IOM will share the assessment documents to OCHA for further process of responding. Darayem: the joint assessment team found 37 families in Darayem, IOM will share the Document of assessment with OCHA. Yaftal Payan: two families found in Yaftal Payan ANDMA will respond by Food items and IOM provides NFI. Mah May: assessment is ongoing and AKAH will share the assessment documents with OCHA. Nosai: AKHA has reported that 2 children died while two other injured and 7 houses destroyed, AKAH will share the assessment documents with OCHA. Shahri Buzurg: assessment is ongoing, ACTED will share the assessment documents with OCHA. Shukai: assessment is ongoing and AKHA will share the assessment documents. Teshkan: assessment is ongoing (ARCS and Mission East), ME will share the assessment documents with OCHA. ANDMA reported that the water supply network damaged in Keshem district, two interagency assessment teams deployed to assess the network in Keshem district ACTED and ME in close coordination with ANDMA will assess.</p>	<p>The two established joint assessment teams will assess the flash flood affected families in Faizabad city.</p> <p>ACTED and ME will assess the Keshem district water supply network.</p>

		<p>ANDMA Faizabad reported that the team were busy in different districts we have received petitions form Faizabad city, the OCT members agreed to established two joint assessment teams to assess the flash flood affected families in Faizabad city. Established joint assessment team in Faizabad:</p> <p>Team 1: ACTD, Afghan aid, ANDMA                      transportation: Afghan aid Team 2: ACTED, AKHA, NAC                                transportation: ACTED</p> <p>ANDMA director asked that ANDMA should share the PDMC meeting minutes to OCHA for circulating to all humanitarian partners.</p> <p>The following agencies are ready to actively participate in natural disaster assess in Faizabad city: AKHA, NAC, Afghan aid, IOM, ARCS, ACTED, IDS/WFP, SFL, ME, Concern WW, DACAAR.</p> <p>Meanwhile ANDMA Badakhshan has invited the team to attend the PDMC meeting which will take place for the next week, the main important agenda for the meeting is information giving for the community in the district about the flooding, and collecting the list of villages which are prone flash flooding.</p>	
5	<p>Updates on conflict IDPs assessment, responses and reviewing the collected petitions.</p>	<p>The DoRR and ACTED requested to update the conflict IDPs situation in Badakhshan ACTED: based on OCHA email the teams deployed to assess the 65 IDP families in Baharak and Faizabad city, fortunately after assessment of the assessed 65 families not found Conflict IDPs DoRR: Still there are threats for the civilians in Arghanjkhov district, the assessment process is stopped and recently we have received a letter form district governor, the list will be reviewed. The petitions which were collected by Badakhshan DoRR reviewed by OCT members out of 692 listed families who have submitted their petitions to DoRR the OCT members recognized 139 families as vulnerable, the rest 553 families not recognized vulnerable and rejected.</p> <p>One interagency assessment team consisting of ACTED, SFL/WFP, AKAH and DoRR established to assess the 139 vulnerable families, transportation for the assessment team will be provided by AKHA.</p>	<p>ACTED, SFL/WFP, AKAH and DoRR will assess the 139 listed families in Faizabad city.</p>
