

**Meeting minutes of the CwC Working Group**

<b>Date:</b>	26th August 2020	<b>Time:</b>	02:00 PM	<b>Venue:</b>	Microsoft Team Meeting
<b>Chair</b>	Mahbubur Rahman, <i>Coordinator, CwC WG</i>			<b>Notes</b>	Dilruba Akter, <i>IM Assistant, SMSD &amp; CWC Sector</i>

**Discussions and action points:**

<b>Introduction of the attendees and action points from the last minutes</b>	
Discussions	<ul style="list-style-type: none"> <li>The last meeting's minutes were discussed and considering the satisfactory progress on the action points the working group members endorsed it thereby.</li> </ul>
Action point	<ul style="list-style-type: none"> <li>Resource materials (presentations) from Community Engagement piloting orientation will be shared with FSS sector to share with their participants. Moreover, the planning is ongoing to do the same orientation with other sectors too.</li> </ul>
<b>Updates: General and Risk Comm TWG</b>	
Discussions	<ul style="list-style-type: none"> <li>Most of the updates from CwC has been shared through CwC Digest which been shared with all partners periodically and CwC coordinator will only repeat the most important update rather than duplicating the same messages again.</li> <li>25<sup>th</sup> August was the 3 years mark of the big influx in 2017. ISCG and other agencies has published press releases. ISCG Comms group also shared some video materials.</li> <li>The UNHCR and government joint initiative for registration has been restarted after few month's suspension due to COVID situation. Two FAQ's on this have been shared: one for communities and another for humanitarian agencies. Along with these, some IEC materials (audio) has also been shared for agencies to play at different places in camps.</li> <li>Messages for Communication on Routine Immunization have already been drafted, and a communication strategy has also been drafted but these were held on to incorporate the findings from study conducted by <i>UNICEF and WHO</i> about community perception towards "Immunization" in Rohingya camps. The RCCE TWG will revise the strategy based on the findings and input and hope to start the campaign very soon.</li> </ul>
Action point	<ul style="list-style-type: none"> <li>Findings from study on community perception towards "Immunization" in Rohingya camps will be shared with RCCE TWG. The TWG will revise and finalize the Communication strategy as well as the messages soon.</li> </ul>
<b>Oxfam Presentation on Community Perception Tracker (CPT) tool and findings</b>	
Discussions	<ul style="list-style-type: none"> <li>OXFAM presented a presentation on Community Perception Tracker (CPT)- approach &amp; tool. The CPT is an approach that uses a mobile tool (Survey CTO on mobile phone/tab etc) to enable staff to capture, analyse and understand the perceptions of communities during disease outbreaks. During a disease outbreak qualitative data is often informal and subjective and rarely used, the CPT can capture the data in a systematic manner and help to transform informal data in more purposeful evidence. It supports more accurate data collection; reduced</li> </ul>

	<p>burden on programme team; rapid report produced (and direct humanitarian impact). It Captures trends, the rapid analysis of systematically collected data enables to generate concrete evidence; identify evidence, and can inform future response.</p> <ul style="list-style-type: none"><li>• Oxfam piloted using this tool in 4 camps and host communities in Ukhiya and Teknaf in July and August. Based on July findings, Oxfam field teams emphasized community mobilization in areas/themes where there was a gap. So, in August the situation had changed a lot. The full presentation is attached herewith.</li></ul>
Action point	<ul style="list-style-type: none"><li>• CwC Coordinator requested to share the analysing report regularly with wider group and OXAFM agreed on this. For general enquiries, please contact: <a href="mailto:oxfamcpt@oxfam.org">oxfamcpt@oxfam.org</a> and for queries on CPT in Bangladesh, please contact: <a href="mailto:caroline.muturi@oxfam.org">caroline.muturi@oxfam.org</a></li></ul>
<b>UNICEF Presentation on study regarding community perception towards Immunization</b>	
Discussions	<ul style="list-style-type: none"><li>• UNICEF presented a study on community perception towards “Immunization” in Rohingya camps conducted over the last week at 26 camps through FGD and KII with structured questionnaire. The objective was to find out “<i>what are the existing barriers and bottleneck in accessing EPI services in the Rohingya camps</i>” and “<i>what will be key messages, mediums and materials to improve immunization coverage for children in Rohinyga camps</i>”</li><li>• The study identified the key barriers that include- Distance to immunization centre, Parents and caregivers cannot bring children on vaccination centre for domestic work, Fear of side-effects (particularly for fever and muscle pain), Lack of awareness on the importance of vaccination, Apprehension amongst children on immunization and Rumours on immunization (Manchi- a mark on the body being visible after the shot).</li><li>• Some recommendation was drawn by UNICEF but more discussion with WHO is needed to finalize them as some of them (e.g. vaccination method, campaigning duration etc.) are technical. The recommendation should also be based on the barriers.</li></ul>
Action point	<ul style="list-style-type: none"><li>• UNICEF to discuss with WHO and child protection sector for finalizing the recommendations. The RCCE TWG will finalize the strategy and messages and agree on start date for the communication initiatives (proposed date is from 1<sup>st</sup> October).</li></ul>
<b>Update from partners and Challenges on the ground</b>	
Discussions	<ul style="list-style-type: none"><li>• WFP/Food Security sector updated, Masks making and distribution is going on well where they already covered 20 camps. Distribution in 11 camps is ongoing and will start in rest of 3 camps in September. They will scale up this distribution in 8 Upazila for Host communities in coordination with DC office and ISCG.</li><li>• ACLAB updated that they are continuing COVID 19 awareness on different beach points in Cox's Bazar. The DC office had advised to operate the tourist awareness campaign using Rikshaw/Van instead of car/vehicle on the beach. ACLAB is following the instruction accordingly.</li><li>• ACLAB inaugurated a new Information Service Center (IFC) at Choto Kutubdiya.</li><li>• CPJ shared that they are facing problem with internet to operate the remote management inside the camp and expecting to use WFP internet connection. They need to coordinate with WFP on this and will discuss with CwC coordinator separately for support.</li></ul>

Action point	<ul style="list-style-type: none"><li>• N/A</li></ul>
<b>AOB</b>	
Discussions	<ul style="list-style-type: none"><li>• Next meeting is 9<sup>th</sup> September as we switched to biweekly from now.</li></ul>
