# Deir Ez Zor

PROTECTION SEVERITY RANKING BY SUB-DISTRICT

Severity ranking by sub-districts considered 3 indicators:

i) % of IDPs in the population;

ii) conflict incidents weighted according to the extent of impact; and

iii) population in hard-to-reach communities.

Severity ranks

- ○ No problem
- ○ Minor problem
- ○ Moderate problem
- ● Major problem
- ● Severe problem
- ● Critical problem
- ● Catastrophic problem
