As of 30 June, humanitarian partners have reached 5.2 million people affected by drought. Of those reached, 452,500 people are in places of displacement, while the remainder are in drought-affected rural areas. In some drought-affected provinces, insecurity and other access challenges have prevented humanitarian partners from delivering relief items and basic services to those in need.

**TARGET VS ACHIEVEMENT**

4.6 million people prioritised for assistance

4.2 million in drought-affected rural areas

0.4 million in districts of displacement

5.2 million people reached

(113)

IDPs Non-displaced

4.8 million in drought-affected rural areas

0.5 million in districts of displacement

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations. Dotted line represents approximately the Line of Control in Jammu and Kashmir agreed upon by India and Pakistan. The final status of Jammu and Kashmir has not yet been agreed upon by the parties.

1. While steps have been taken to reduce double counting of people assisted, some duplication may still exist. The number of people reached is cumulative from the beginning of the response.
2. Includes some assistance to host communities in places of displacement.
3. ES-NFI: Data received as of 31 March 2019.
