## Sector Response Strategies and Priorities

- Creation of short-term work opportunities, particularly through Cash for Work modality, possibly, but not exclusively, linked to rehabilitation works improving access to services;
- Support to micro-businesses (start-up and Covid-19 impacted) both in urban and rural environments;
- Rehabilitation/restoration of access to basic utilities, local economic infrastructure, and other social infrastructures, including markets, electricity, water and sanitation systems and access ways/roads to markets, cultivable lands and camps;
- Collecting daily solid waste in urban areas and inside camps;
- Restoration of essential services and basic infrastructure to prioritize activities that would support the preventive and curative health response to COVID 19, including rehabilitation of health centers/facilities, retrofitting of designated Quarantine facilities;
- Market-based modalities assistance to vulnerable HHs including assisting vulnerable HHs with transportation to/from markets and health facilities.

## Areas of Operation

ERL partners operated mostly in Aleppo/ Jandairis, Sharan, Al Bab and Ar-Ra'ee subdistricts and Idleb/ Dana, Ariha, Mhambal, Maaret Tamsrin and Idleb subdistricts.

## Key Achievements

111,760 HHs

Rehabilitation of access to basic utilities (electricity, gas, water, sewage) interventions reached
