Subject: Processing of requests IRO UN Agencies/Persons/NGOs/INGOs Visiting FATA

1. In the wake of successful accomplishment of **Op Zarb-e-Azb** and commencement of return of **TDPs**, particularly in **NWA / SWA**, requests of certain **UN Agencies/ persons** to visit these areas with a view to study the feasibility of **TDPs** return are being received with increase tendency. All such cases are referred to this Headquarters for prior clearance both in terms of staff and **UN agencies/ other NGOs**.

2. This aspect has been observed with great concern and following are observations :-

- a. Requests are **processed late**, leaving little processing/ reaction time. It would be appreciated that **input from Field intelligence is a pre-requisite** for clearance/ non-clearance of such requests which is a **time-consuming process**.
- b. Information regarding the **place/ important of these visits/ activities** in the scheme of events, preceding the return/ rehab of **TDPs**, is not shared. This info if provided will help in ascertaining the **exigency** of such requests and their processing in **given context**, resulting in **speedy decision/ disposal**.

- c. Recently, **mistakes** in data provided by FDMA/ other agencies have also been observed, necessitating **return of the complete case** for necessary corrections, **consuming additional time**
 - d. Copies of **faxed letters** on covering ltrs are **not legible** and lead to difficulties in obtaining required information for checking relevant records in most of the cases.
3. Apropos, in order to facilitate this Headquarters for smooth process of such requests, following must be adhered:-
- a. Forward the requests **minimum 3 weeks in advance**. In view of **long term planning** for TDP's return/ rehab, this point **must be insisted upon**
 - b. Exceptions may be allowed in **special cases only**, for which initiating agency may be asked to furnish **pertinent reasons**.
 - c. The request should be accompanied by a **brief explanation** about the **important of the activity** as regards return / rehab of TDPs.
 - d. Ensure provision of **accurate data**, especially names of the individuals and CNIC numbers.
4. Forwarded for necessary action, please.
