Over 12,600 persons have been verified through the Government of Bangladesh and UNHCR joint verification exercise, as of 31 July. Shelter upgrades and refugee relocations continue in the camps. Heavy rains raise risks of water- and vector-borne diseases, and trainings were conducted to build further emergency faecal sludge management capacity. Space for emergency evacuations and sustainable relocations remain topline needs, and funding gaps continue to limit capacity.

Key figures

919,000
refugees estimated in Cox’s Bazar, according the Needs and Population Monitoring (NPM) exercise. NPM estimates are based on interviews with key informants and triangulated through field observations and spontaneous community group discussions.

626,000
refugees in Kutupalong Balukhali Expansion Site

919,000
Rohingya refugees as of 21 June 2018

15,000
refugees in host communities*

278,000
refugees in other settlements/camps

889,284
refugees identified, including 855,328 counted at the household level via the RRRC Family Counting Exercise and 33,956 registered before 25 Aug 2017. Methodology is based on interviews with each family, collecting gender-and age-disaggregated statistics, geolocations and specific protection needs.

People in Need

1,300,000
PEOPLE IN NEED AND TARGETED

* as estimated in the 2018 Joint Response Plan, including approximately 330,000 Bangladeshi in host communities.
Humanitarian response (since March 2018)

141,628 children and youth enrolled in learning opportunities in camps, settlements and host communities
Target: 530,000 children and youth

885,595 people receiving food assistance
Target: 959,000 people

33 primary health centre facilities

38,316 refugees benefiting from awareness raising and community-based protection mechanisms
Target: 103,389 people

206,271 girls and boys benefiting from psychosocial activities
Target: 400,000 boys and girls

78 safe, accessible entry points for GBV case management services
Target: 200 safe, accessible entry points
