Critical services continued during the election period. The Oral Cholera Vaccination campaign was completed on 13 December 2018 after vaccinating over 356,000 refugees and Bangladeshis. Camps in Charge officials in Camps 3 and 4, supported by Protection Working Group, held a 'Victory Cup' football match for refugee teams and thousands of spectators. Educational data was collected to allow grouping of students into appropriate learning levels. WASH Sector surveyed canals and lakes for opportunities to bolster water access. Congestion continues to heighten a range of risks to refugee

Key figures

902,380

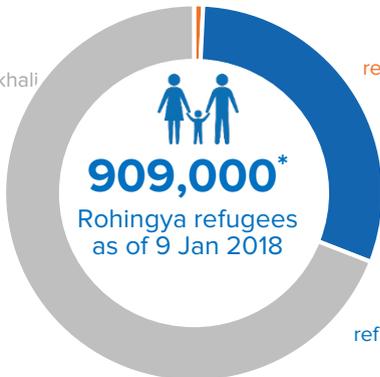

refugees identified in camps*, at the household level via RRRC-UNHCR Family Counting Exercise and 34,172 registered before 31 Aug 2017.

Methodology is based on interviews with each family, collecting gender-and age-disaggregated statistics, geolocations and specific protection needs.

*Note: FC figures also identify 4,818 refugees outside of formal camp boundaries.

627,000

refugees in Kutupalong Balukhali Expansion Site

7,000
refugees in host communities

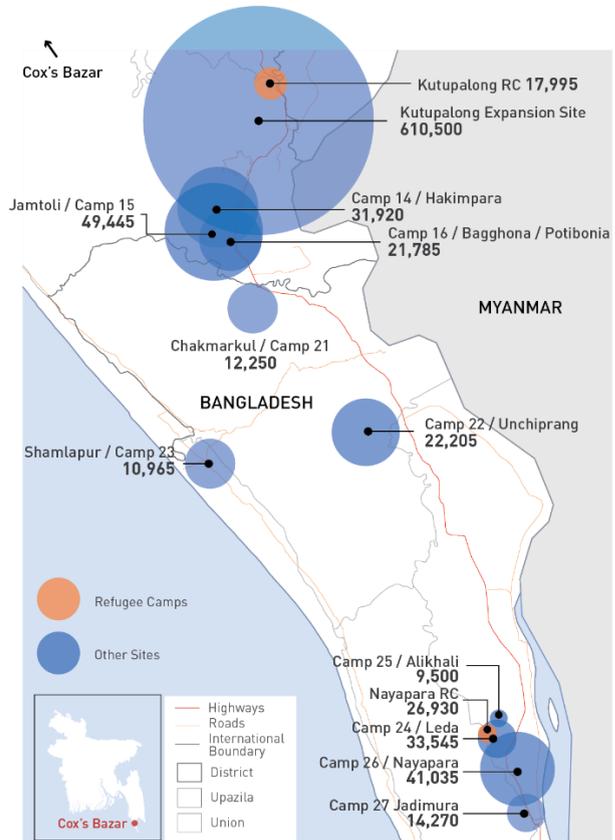

274,000
refugees in other camps

Site locations and Population

6,827

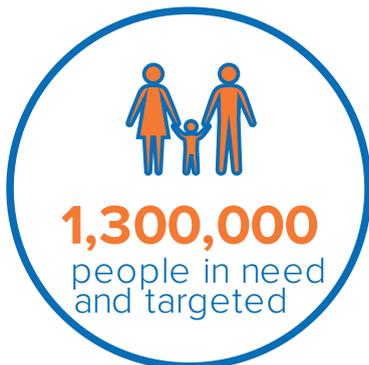

refugees (est) in host communities in Ukhiya/Teknaf Upazilas, per Needs and Population Monitoring (NPM)). NPM estimates are based on interviews with key informants and triangulated through field observations and spontaneous community group discussions

REFUGEE SITES BY POPULATION AND LOCATION TYPE

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations.

People in Need

* as estimated in the 2018 Joint Response Plan, including approximately 336,000 Bangladeshis in host communities.

Humanitarian Response (Since March 2018)

279,619

children and youth enrolled in learning opportunities in camps, settlements and host communities

Target: 530,000 children and youth

907,366

people receiving food assistance

Target: 959,000 people

25

primary health centre facilities

671,932

refugees benefitting from awareness raising and community-based protection mechanisms

Target: 103,389 people

276,389

girls and boys benefitting from psychosocial activities

Target: 400,000 boys and girls

114

safe, accessible entry points for GBV case management services

Target: 200 safe, accessible entry points

32,082

children 0-59 months with Severe Acute Malnutrition newly admitted for treatment

Target: 35,093 children

185,397

households benefitted from tie-down kits

Target: 211,000 households

45,900

individuals relocated due to risks of landslides/flooding, new arrivals and construction of critical infrastructures as of 5th December 2018.

882,951

of the target population benefitting from safe water to agreed standards and meeting demand for domestic purposes (15 litres per person per day)

Target: 1,052,495 people

1,013,439

of the target population have received a WASH hygiene kit and/or a top up kit and/or a voucher in the last three months

Target: 1,052,495 people

28,254m³

Total Cargo Handled (m³) on behalf of the humanitarian community since the start of the response

32

providing inter-sector information services and equipment

130,027

refugees and Bangladeshis received cash/in-kind livelihoods support

Target: 350,000

581

plots available in existing sites

JRP Funding (USD millions)

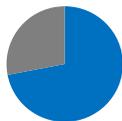

JOINT RESPONSE PLAN 2018

USD 950.8 M

requested in the Joint Response Plan

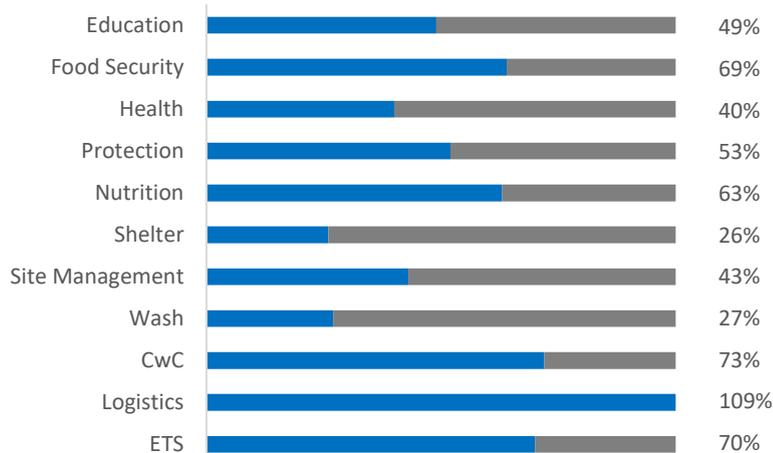

69%

funded (per FTS as of 10 January 2019)

USD 71.2 M

in funding outside the JRP (including the Red Cross Movement and others)

JRP 2018 Strategic Objectives

1. Provide timely lifesaving assistance and protection, as well as improve the living conditions of Rohingya refugees and affected host communities.

2. Ensure well-being and dignity of Rohingya refugees and affected host communities.

3. Support environmentally sustainable solutions.

4. Confidence-building and resilience of Rohingya refugees and affected host communities.
