

In April, the Fund launched a dedicated allocation of \$20.5 million as part of the SCHF strategy in response to the COVID-19 pandemic to complement ongoing efforts embedded in other allocation. The projects funded under this allocation directly contributes to the COVID-19 Preparedness and Response Plan (PRP) for northwest Syria. The allocation supports the procurement of critical supplies, including PPEs for humanitarian organizations. The SCHF adopted the [Flexibility Guidelines](#) to rapidly adapt to the new working environment and to respond efficiently and support partners. With the extended flexibility, the SCHF allocated \$1.3 million to the COVID-19 response by reprogramming of ongoing WASH interventions by granting for the first-time cost-extension.
