

## ERM Household Assessment Report

(Should be written and submitted ASAP after the completion of Rapid Need Assessment)

### 1. General Information:

<b>Assessment Location:</b> <i>(Province/District/Village)</i>	Ghazni Province , Malistan district ( Bamurad, Jana, Talgunda, Dunya bik, Menkal, Qushnak Ghouch Hamza and Kohna Village)		
<b>Type of Crises:</b> <i>(Conflict/Natural Disaster/Other)</i>	Conflict		
<b>Crisis Location:</b> <i>(Province/District/Village)</i>	Urozgan-e-Khas district of Urozgan province.		
<b>Assessment Team:</b> <i>(Name of I/NGO in the Assessment Team)</i>	DRC		
<b>Crises Date:</b> <i>(Date of Displacement-Estimated)</i>	July to Sep, 2017.		
<b>Date of Notification:</b>	19 October 2017		
<b>Date of Assessment:</b> <i>(starting date/ending date)</i>	8 <sup>th</sup> to 10 <sup>th</sup> of November 2017		
<b>TYPES OF ASSISTANCE PROPOSED</b>			
<b>Affected Population:</b> <i>(Total Caseload: IDP/CAT A/CAT B/Other)</i>	<b>HHS:</b>	<b>Families:</b>	<b>Inds.</b>
	14	14	83
Multipurpose Cash (Full Amount)	14	14	83
Multipurpose Cash (Top Up)			
NFI Kit			
Emergency Shelter			
Protection Referral			
Individual Protection Assistance			
<b>TOT. UNIQUE BENEFICIARIES</b>	14	14	83
<b>Data Collection Method</b>	<b>Electronic</b>	<b>Hardcopy</b>	
	Yes		

### 2. Assessment Finding and Recommendation in brief:

*Be very concise and provide # of affected people, information about damages, priority needs, and recommended assistance (Who, When, How should be assisted, By which Organization).*

On 19 /10/2017, UNOCHA alerted that report through Ghazni DoRR indicates force displacement of 99 conflict induced families who left their villages in Urozgan neighboring province and displaced to Malistan district of Ghazni, are in need of urgent humanitarian support.

On 7/11/2017, DRC in coordination with UNOCHA and Ghazni DoRR sent an assessment team to Malistan district. Need assessment conducted from 8<sup>th</sup> to 10<sup>th</sup> of November 2017, and 14 families who have been displaced over last four months due to security threaten in Urozgan-e-Khas district of Urozgan province, identified eligible for emergency humanitarian support, and remaining families were

protracted, split or not found/relocated. More details of assessment findings summarized in following table:

**Figure 1: Table of assessment findings.**

Initially reported	Assessment findings				Eligible for support
	Protracted IDP	Not found	Split	Repeated in DoRR list	
99	47	26	9	3	14

Priority needs of IDP families as reflected in HEAT data base and direct observation of assessment teams are as below:

- Food.
- NFI (kitchen kit, bedding items and cooking items, fuel).
- WASH (hygiene kit).

**Response Plan:**

- DRC committed to cover above mentioned needs of the IDP families through distribution of MPCA (Multi-Purpose Cash Assistance) of AFN 26000 and in kind( NFI) to 14 IDP families.

### 3. Sectorial Issues:

**A) Food Security, Nutrition and Livelihood:** *(provide detailed information about the impact of food security and livelihood i.e. lost/damaged food stock, current food stock statues, income sources, damaged/destroyed crops and agricultural land, type of agricultural land, agricultural inputs availability, diet diversity, irrigation system, livestock etc. Also describe immediate food and nutritional need and provide recommendation about the short and long term food and nutrition assistance)*

These IDP families were farmers who worked as peasants with land owners in their places of origin and lived with minimum income. When Taliban insurgents forced them to pay illegal taxes or leave the area, they couldn't pay heavy taxes. From other hand, they couldn't afford expenses of moveing to big cities, therefor, left their crops, food stocks, and displaced into mountinuse terretory of nieghboring district of Malistan. In current locations IDP families are suffering from lack of basic food items, mostly resort to negative coping strategies like law quality food materials, borrowing from local community and less diversity in diet (mostly consume bread and tea in three meal times). 65% of the idintified families has debt more than 8000 AF and most of them don't have food stock less than a week.

Daily wage and agricultural activities during fall and winter season is at lowest level in Malistan district and IDP families' income is not suffecient to provide basic food items for their children, and this situation pose danger to their food security during upcoming winter.

**Recommendation:**

Food assistance through MPCA or in-kind food provision to 14 IDP families is recommended ASAP.

**B) NFI:** *(provide detailed information about NFI items lost due to disasters/crises as well as what type of NFI is needed for how many families and when? NFI can include cooking items, kitchen items, hygiene items, bedding, clothing, fuel etc.)*

HEAT database and direct observation findings indicates that IDPs couldn't take their essencial HH items during their displacement. Currently all idintified IDP families suffer from shortage of NFIs items, particularly kitchen, cooking, bedding items warm cloths and fuel.

**Recommendation:**

Humanitarian Aid  
and Civil Protection

ERM  
Emergency  
Response  
Mechanism

- Provision of NFI in kind or in-cash to 14 IDP families is recommended.

**C) Shelter:** *(please provide detailed information about the status of shelter condition i.e. type of normal shelters, # of shelters moderately damaged, severely damaged and completely destroyed by crises. How many people live in open space, sheltered with host families, etc. What kind of shelter support/assistance is needed and for how many families). Are there land ownership issues?)*

In current locations all IDP families are living in old abandoned houses of local people, free of rental charge against taking care of house's roof drainage during winter season.

**Recommendation:**

- No recommendation.

**D) WASH:** *(provide detailed information about Water sources, affected water source, sanitation (latrines, used water and solid waste management) and hygiene issues. What is recommended in WASH sector and when?)*

- Water source for (8) IDP families are hand pump and (6) families fetch water from dug well or stream. Average distance between IDP houses and water source spot is (8) minute by foot. HEAT data indicates that (14) IDP families reported having access to water for drinking, cooking, and and 7 families don't have access to enough water for bathing.
- HEAT data base indicate that (7) IDP families have access to family latrine, but latrines are not available for (8) remained IDP family.
- Since the IDP families are living in rural areas, solid wastes are not managed properly and, poverty and low income caused that the IDP families cannot afford sanitation item. Therefore, hygiene practice is not properly applied among the families and overall hygiene conditions are not good.

**Recommendation:**

Provision of hygiene kit in cash or in kind is recommended to 14 IDP families.

**E) Protection:** *(provide detailed information about protection issues, protection needs, PSN and EVIs (Female H, elderly HHs, child HH, chronically ill members, disable members) and provide precise recommendation regarding IPAs)*

Following additional vulnerabilities have been reported by the assessed population.

Elderly headed families (2) Female headed families (2).

**Recommendation:**

- No

**F) Health:** *(provide information about health issues, damaged/destroyed health facilities, current/available health facilities, access to health services and recommended assistance in this regards)*

Basic public health clinics are available for IDP families in district level. No serious diseases after displacement among the IDP families reported/observed during door to door assessment.

**Recommendation:**

ERM MPC assistance include a small amount of cash for covering basic health needs

**G) MARKET ASSESSMENT:** *(provide summary information regarding the local market, accessibility, security constrains and fill the table if a market assessment has been conducted)*

Market assessment conducted in different locations of Malistan district which are accessible for IDP families (Shir Dagh, Mir Adina and Shina Deh) markets. Adequate food and NFI items are available in the markets and no concern about availability of food and NFI items. All mentioned markets well integrated with Ghazni main market.

Residential houses' rent in the IDPs' settlement areas are between AFN 1000 – AFN 3000.

Following table contains update prices of essential food and fuel in market.

If not applicable, write N/A – do not leave blank.					
	Wheat flour, white – low price (Kg)	Rice - low price (Kg)	Cooking oil (L)	Cooking gas (L)	Diesel (L)
1. An average Current selling price (AFN)	AFN 27	AFN 85	AFN 92	AFN 61	AFN 52
2. An average Selling price 2 weeks ago (AFN)	AFN 27	AFN 83	AFN 87	AFN 58	AFN50
3. How often do you buy new stocks?	Every ...12.days	Every ...7 days	Every7days	Every 7days	Every 10days

All IDPs in assessed locations have access to local markets, daily wage rate vary from 300-350 AFN (depending on location and type of work),

Hawala/money changers are functioning in IDPs' accessible areas.

**L) Other:** *provide detailed information about any other issue that is not covered above, this can include, security, infrastructure, coordination & assistance provided by others, problems encountered during the assessment, e etc)*

### Challenges:

Previous humanitarian intervention and support of Urozgan IDPs in Malista district have motivated a huge number of families who had been displaced many years ago to pretend as recent displaced and submit petitions to Malistan district's local government authorities and request for assistance. This issue was the main reason that out of 99 initially reported IDP families only 14 IDP families identified eligible.

## 4. Urgent Priority needs of affected people (as per affected point of view)

*(Provide detailed information about top 3 priority needs of affected population as per the opinion of affected population and provide your recommendation how and when identified needs shall be addressed)*

**Needs:** Food, NFI (kitchen kit, bedding items, warm cloths, cooking items and fuel) and hygiene kit are three urgent priorities of these IDP families.

### Response plan:

- DRC will provide MPCA 26000 AF/Family and NFIs (Hygiene kit and kitchen kit) to 14 families in one instalment which cover their expenditures on basic needs for two months period.

## 5. Annexes

*(Please provide the database collected under the ERM household assessment in electronic form)*
