**Food Security Situation Updates**

The escalation of the political and economic situation in Sudan during the reporting period, continues to aggravate the food security and livelihoods needs. This period is characterized with the start of the lean season, when most vulnerable communities are at higher risk in their food security status to further deteriorate, due to depleting food stocks and halting of farming activities, leading households to adopt negative coping strategies.

Based on Sudan’s IPC food insecurity August 2019, 6.3* M individuals fall under IPC level phase 3 and above (5.1 M in crisis and 1.2 M in emergency), representing 14.5%* of the assessed population in Sudan, compared to 12.7%* based on January – March 2019 projection. Out of the 162 assessed localities, 59 are classified as phase 3 or worse.

In June 2019, the national average retail price of sorghum and goat increased by 2% and 7.3% respectively compared to the previous month (WFP Monthly Market Update, June 2019).

Several Food Security assessments have commenced and are planned for the third quarter, including the Food Security Monitoring System (FSMS), Mid-Season assessment, Comprehensive Food Security Assessment (CFSA) and the Crop and Food Supply Assessment Mission (CFSAM).

*Figures are excluding West Darfur State, with an approx. population of 1.5 M*

**Response Updates**

In the second quarter of 2019, 1.77* M individuals were reached with monthly food assistance and agricultural livelihoods. The interventions targeted 80% IDPs, 16% individuals from hosting communities and 4% returnees; 52.5% were women and girls while 44.7% were children below the age of 18; 49.8% adults and 5.5% elderly.

FSL sector partners were able to allocate USD 163.1 M under the HRP with the generous contribution of 9 financial partners: USA, UK, EU, Germany, Denmark, Canada, Norway, France and Switzerland; in addition to the CERF pooled fund.

*Around 10% of the sector achievement was with the support of non HRP funding stream*

The food security and livelihoods response was in 13 Sudan States – 74 localities - with the support of 46 partners.

Lifesaving interventions (SO1) was provided to 1.4 M individuals of which around 1.2 M with month food assistance and 200,000 with agricultural support. Self-reliance building initiatives (SO2) benefited around 290,000 individuals; while 70,000 with resilience building (SO3).

**KEY FIGURES**

**PEOPLE REACHED**

- 1.77 M people
  - 1.03 M IDPs
  - 0.15 M Returnees
  - 0.4 M Host Community

**FUNDING RECEIVED (as of end of June)**

- USD 163.1 M
  - 94.5% Food Assistance
  - 5.5% Livelihoods

(48.2% unmet) (40.5% underfunded) (84% underfunded)

**People in Need**

- 5.67 M

**People Targeted**

- 4.4 M

Response compared to targets

Needs/targets are based on October 2018 IPC analysis

Assistance per MYHS Objectives and Activities
Mid-Year / January – June 2019

2.42 M reached with food, agricultural and livelihoods assistance

SO1: Population affected by natural and man made disasters receive timely assistance during and aftermath of a shock
OUTPUT 1.1 Affected people receive timely lifesaving assistance
• 1,180,254 individuals benefiting from General Food Assistance (GFA) with through in-kind, voucher or cash
• 305,862 individuals benefiting from life-saving emergency agriculture and livestock/veterinary inputs and kits
• 24,715 individuals benefiting from multi-purpose cash transfers

OUTPUT 1.2 Strengthened emergency response preparedness of humanitarian actors
• 66 staff from 54 agencies (NGOs, UN and Government institutions receiving capacity building to improve preparedness and response during emergencies

SO2 Displaced populations, refugees, returnees and host communities meet their basic needs and/or access essential basic services while increasing their self-reliance
OUTPUT 2.1 People in need have equal, sustainable access to quality basic services
• 292,628 of individuals benefiting from inputs and capacity building for climate-smart crop production, livestock and veterinary services
• 53,770 of individuals benefiting from reduced food losses through post-harvest techniques, plant pest and animal disease control

OUTPUT 2.2. People in need have enhanced access to finance and income options and livelihood opportunities
• 133,197 of individuals benefiting with income generating activities and vocational trainings
• 199,103 of Food or Cash For Work/Asset beneficiaries

SO3: Vulnerable residents in targeted areas have improved nutrition status and increased resilience
OUTPUT 3.1 Stakeholders and affected communities (national and state level) have improved capacity to prevent malnutrition in multi-sectoral manner
• 29,500 individuals provided and trained on fuel efficient stoves (FES) and Safe Access to Firewood and Alternative Energy (SAFE)

OUTPUT 3.2 The affected communities are targeted and empowered through community-based livelihood interventions
• 198,654 of individuals provided with nutrition, energy and water sensitive agricultural and livestock, natural resource management-based livelihoods inputs, kits and capacity building
• 1,900 of individuals trained of CAHWs and supported with veterinary kits
