

TIMELINE OF CUMULATIVE DISPLACEMENT

IOM IRAQ DISPLACEMENT TRACKING MATRIX (DTM)

JANUARY 2014 TO JULY 2 2014

Since the beginning of 2014, hundreds of thousands of people have been displaced in Iraq due to a serious deterioration in the security situation. Beginning in the western governorate of Anbar and spreading into north and central Iraq, the ongoing conflict continues to create a pressing need for accurate displacement tracking as well as increased humanitarian assistance. IOM's Displacement Tracking Matrix (DTM), an information management tool, has been implemented to track displacement since the onset of the crisis.

¹ 851,448 individuals represent the number of IDPs in 1,220 identified locations; there are still many known and predicted unknown locations that have not yet been covered and it is expected that number of IDPs will change in the next update.
