

Syrian Arab Republic: Humanitarian Fund

(Jan - July 2016)

The Syria Humanitarian Fund (SHF) supports projects and activities identified under the 2016 Syria Humanitarian Response Plan while retaining the flexibility to allocate funds to respond to unforeseen events or special requirements. The SHF reinforces the leadership and coordination role of the Humanitarian Coordinator by allocating funding to priority needs through the humanitarian sectors. The SHF, which has a 60 million USD funding target in 2016, works with a variety of implementing partners in a complex operational environment. As part of its effort to deepen partnerships with national humanitarian actors and build their capacity, the SHF aims to allocate 60% of funds to NGOs (with a focus on NNGOs) and Red Cross/Red Crescent Movements operating in Syria. To prioritize responding to critical life-saving needs, the SHF aims to allocate at least 30% of funds to besieged and hard to reach areas.
